SUPER INTELLIGENT PERSPECTIVE

Super Intelligent Footswitch

The perfect addition

The Super Intelligent Footswitch is the perfect match for our award winning Microtubes 900 Amplifier. It allows for easy access to the wide tonal options the amplifier offers: Clean channel, Vintage Microtubes and Microtubes B3K overdrives and Mute are now a stomp away.

Warning

The Super Intelligent Footswitch will only work with our amplifier, the Microtubes 900.

Technical Specifications

Dimensions

Width	220 mm (8.66 in)
Height	45 mm (1.77 in)
Depth	48 mm (1,88 in)

Weight

450 g (0.99 lb)

Controls

Clean: Crisp, transparent and incredible versatile clean channel with 4 Band EQ.

VMT: Will bring up the mids for a warmer, more neutral character of our Vintage Microtubes.

The manufacturer claims that the above product fulfills the requirements as set by EN55013, EN55020, EN60555-2, EN60555-3, RoHS, WEEE.

EMC / EMI

This equipment has been tested and found to comply with the limits for a Class B Digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in residential installations.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. There is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
