

**HOTONE**

**SKYLINE Series**  
Stompbox

**LOOP STATION**  
**Owner's Manual**

THANK YOU FOR PURCHASING A HOTONE PRODUCT!

Wally+ was designed on Hotone's smart and simple Wally looper platform, then enhanced in terms of power, usability, and sophistication. Wally fans will appreciate the independent I/O controls and unique tempo knob. Augmented features include 24-bit 44.1kHz recording/playback quality, 8GB internal storage, and 11 savable loop phrase banks.

Wally+ has USB onboard so you can import/export/manage your loop phrases with the included PC/Mac software. Download: [www.hotoneaudio.com/support](http://www.hotoneaudio.com/support)

**Operating Instruction**

OPERATION	FUNC./STATUS	LED DISPLAY
Power on (no data)	Empty	None
Power on (with data)	Stop	Green LEDs flash

Recording (around 30 minutes)	Memory nearly full	Red LEDs flash

Selects from 11 different savable phrase banks  
 Input for 9V DC adapter (center negative)  
 Controls the loop speed  
 Center: Original speed  
 Far left: Half speed (1 octave down)  
 Far right: Double speed (1 octave up)  
 Displays the current operating status (hold to save recorded phrases or changes to current bank)

Controls the loop volume  
 For connecting to your computer to import/export/manage your loop phrases

**Specifications**  
 Max. loop length: 30 minutes of each bank (330 minutes total)  
 Max. number of overdubs: unlimited  
 Memory: 8GB internal storage  
 Current consumption: 100mA  
 Dimensions: 74mm (D) x 44mm (W) x 44mm (H)  
 Weight: 190g

True Bypass  
 Structural Design Protected by Patent  
 Exterior Design Protected by Patent

**Notes**

- ※ LEDs will flash once at the loop end.
- ※ Overdub cannot be operated during tempo variation. You must turn the tempo back to the original speed (TEMPO knob at center position) to resume overdubbing.
- ※ Red LEDs will flash for a while when memory space is going to run out. When the loop time reaches the limit, recording will stop and return to playback.
- ※ Recorded phrases will be temporarily saved after you power off. You can store a phrase by saving it in the current phrase bank.
- ※ Changes (undo/redo) in phrase banks cannot be made once saved.
- ※ SAVED PHRASES CAN BE DELETED while holding the footswitch. You can export your saved phrases via PC/Mac software.

**Factory Reset**

If you accidentally formatted the Wally+ internal storage on your computer or experienced a malfunction while recording/playing, you can perform a factory reset to bring your Wally+ back to normal.

To perform factory reset: Press and hold the SAVE button and footswitch for at least 5 seconds when Wally+ is in STOP status. The LEDs will flash red and green. When the lights go out, your looper will be reset.

*Note: THIS OPERATION CANNOT BE UNDONE AND ALL USER DATA WILL BE LOST--PLEASE BACKUP YOUR DATA FIRST!*
