

SSA100

Speaker/Lighting Stand Skirts

LIGHTING/SPEAKER STANDS

FEATURES AND BENEFITS

Give your speaker or lighting stand a clean look by hiding cables, cords and bulky tripod legs. The SSA100 is made of a stretchable fabric that fits neatly around two sides of a standard tripod speaker stand. The resulting elegant look is perfect for weddings, corporate events, and other productions where an upscale aesthetic is desired. Because the third side remains open, there is easy access and plenty of room for cables and storage of gear. The SSA100 even has its own built-in carry bag for easy and carefree transport and storage. What's more, the fabric has been treated for flame resistance, and it can maintain flame resistance for up to 30 washings.

Durable fabric stretches to fit, and the hook & loop strap makes for easy set-up and tear down.

Included built-in bag makes for easy storage and transport.

Two-sided coverage hides cables and cords, while still providing easy access.

Clean Up Your Act!

The SSA100's are perfect for a clean, elegant appearance on most speaker or lighting stands. Available in two colors: SSA100B - black, SSA100W - white. The translucent white fabric works great with LED uplighting!

PRODUCT SPECIFICATIONS

- > **Materials:** Stretchable, durable nylon
